

Vaccinate each person in
three places. To vaccinate
with crust. Pulverize a
bit of crust using water;
get it to about the consistency
of thin Paste; make checks
with lanced thurs,

~~###~~ ~~###~~ ~~###~~ and apply
the paste.

To vaccinate with quill or
bone points rub one
thoroughly twice over the
several groups of checks.
Vaccine virus must be
kept in a cold dry place.
